

Hottest Topics in Plastics Industry

March 10 (Tue) – March 11 (Wed) 2026

Marriott-Midtown
Atlanta, GA 30303, USA

.....
WELCOME to Innoplast Solutions 34th Conference; 15th on Re-Invention of Plastics!

Call for Presentations: April 15th, 2025

Having served the global Plastics Industry for 50 years with over 120 research publications, 25 U.S. patents, Society of Plastics Engineer's International "Engineering/Technology" Award-2001, technical associations with the last **2-Nobel Laureates** in polymers, Prof de Gennes-1991 and Prof MacDiarmid-2000, and **\$Mega-Millions Business Impact** recognized by Honeywell via 5-Special Recognition Awards plus 3-Business Awards, namely, "Growth of the Year," "Sale of the Year," and "Save of the Year", we use our best judgment to produce value-driven conferences. So, for our 2026 conference, we will be delighted to consider your contribution along the following guidelines:

Welcome & Flash-Review of Plastics Technology

Session I: Update on Micro-Nano Plastic Particles in Humans

- What do the Analytical Measurements Show ?
- What are the Sources of Contamination ?
- What Do We Know about Toxicological Effects ?
- How to Reduce / Eliminate these Particles ?

Session II: PFAS in Humans via Plastics: Sources & Substitutes

- Overview of Health Effects and Routes of Body Entry via Food Packaging, Non-Stick Cookware, and Stain-Resistant Coatings
- Innovative Developments on Substitutes

Session III: Why Plastics Industry Must Go Non-Fossil and How ?

- Compelling Reasons to Go Non-Fossil Route
- Re-Invention of Ethylene via BioMass and GHG Emissions and its Impact on Plastics Industry:
 - Polyethylene-Highest Volume Plastic BUT Biobased
 - Biobased Building Blocks from Bio-E: MEG, EVA, EVOH and PVC
- Preserve & Respect Material Value via Recycling
 - Plastics Recycling A-to-Z: Executive Overview
 - Re-Invention of PET via Mechanical Recycling: Advantages, Limitations and Suggestions for Quality Improvement
 - Re-Invention of Virgin Plastics via Molecular Recycling: PET, Nylon 6 and PS

Session IV: Emerging Products & Processing Technologies

.....
Realizing we are months away, we are just looking for a Commitment to Hold the speaking slot for you right now; note below the **FLEXIBLE-OPTIONS for SPEAKERS**:

- (1) You can nominate a colleague in the event of a timing conflict
 - (2) You can make a VIRTUAL presentation
-

Thanks & Best Regards,

Yash P. Khanna

PhD - Polymer Science & Engineering
